

InFusion Trio Rider

THE BAND COMES WITH ITS OWN SOUND ENGINEER, MONITOR MIXER, 3 CUSTOM SMALL-EAR MONITOR MIXERS, AND 1 CUSTOM MICROPHONE (ALLEN AND HEATH SQ5 + 3ALLEN AND HEATH ME1 + 1X AUDIO TECNICA AE6100)

Needs:

- 1. 3 db stereo Di-Box**
- 2. 1 chair without armrests**
- 3. 220V splitters: 4 stand alone**
- 4. dressing room, coffee, free + sparkling water, snack (cake or sandwich)**

The local sound system receives a mixed stereo LR XLR signal.

The concert is mixed by the band's own sound engineer through their own mixer.

The minimum space requirement for the band is 4.5 X 2.5 m.

The band takes about 30 minutes to set up and adjust. Once the sound is set, the instruments of the band cannot be moved.

Removal takes about 20 minutes.
